

Youth Stock 2011 Fundraiser

“Investing in the Future”

The “Youth Stock Program” began five years ago to help raise money for those that need assistance in attending a variety of youth programs. Having children of my own and having to see all the fundraisers that come through our door, I got tired of supporting all those companies that give very little back to the youth. The “stock sale” is a program where a person, family or business, can purchase stocks for \$25 apiece and as many as they want. Since its conception we have raised over \$10,000 *ALL, 100% of the money goes towards the youth programs. In the fall, those that purchase \$50 or more will be invited to the Stockholders meeting. This meeting will include dinner served by the youth and testimonies about the camps, retreats and rally’s and how those programs changed their lives, their perception of the church, and their relationship with Christ- the fruits of your stock investment. It will be the best investment of your life.

How can you become a Stock Holder? Simply sign up in the gathering place or send a check for the amount of stock you would like to purchase. If you have any questions, please contact Mr. Brueggen at 526-4424 or email at youth@seasholmen.org .

Please pass the word of this fundraiser to your family and friends and thank you for investing in our youth.
